Early Start Speech Pathology are excited to run this popular group for 2019.

Often teenagers with SOCIAL DIFFICULTIES can be forgotten about by the time they are in their teens. Early Intervention worked for them but now they are facing NEW CHALLENGES as a teenager.

Early Start's experienced Speech Pathologists will guide your teenager through the NEXT STEP of SOCIAL AWARENESS and SELF AWARENESS, leading to increased SOCIAL CONNECTIONS and SELF ESTEEM

The TEENS CONNECT program is based on current evidence and uses a multimodal approach that will engage even the most reluctant of teenagers
